

Remarks:

This amendment is submitted in an earnest effort to advance this case to issue without delay. The examiner has indicated that the case contains allowable subject matter.

The specification has been amended to eliminate some minor obvious errors. Reference to the claims has been eliminated, some clumsy translated language has been cleaned up, and US-style headings have been inserted. No new matter whatsoever has been added.

All claims have been allowed. They have been amended to clean up the translated language somewhat, to correct a glaring antecedent-basis error, and to eliminate reference numerals, but no change to their scope has been made, so they remain allowable.

Finally, the informal drawing has been replaced with a properly labeled formal drawing.

Thus all formal issues have been cleared up and the case is in condition for passage to Issue. Notice to that effect is earnestly solicited.

If only minor problems that could be corrected by means of a telephone conference stand in the way of allowance of this

case, the examiner is invited to call the undersigned to make the necessary corrections.

Respectfully submitted,
Karl F. Ross P.C.
